RE: Asbestos Hazard Emergency Response Act (AHERA) Asbestos Inspections and Management Plans

Latrobe School District has hired Entek Consulting Group, Inc. (Entek), a consulting company, to complete the required three-year re-inspection of all asbestos-containing building materials in the District. The re-inspections for Latrobe Elementary and Miller's Hill Schools were completed on September 7, 2010 by an accredited inspector. The re-inspections data has been incorporated into the Management Plan.

Also, during the past year the District has performed the required six-month surveillances on the Latrobe Elementary and Miller's Hill sites. This information is also incorporated into the Management Plan.

A copy of the District's Management Plan is available for review during normal office hours at the District office at 7900 S. Shingle Rd, Shingle Springs. If copies of the plan are desired, a nominal duplication fee may be charged.
