2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year)

Revised 12/11/2023

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

Miller's Hill is one of two schools in the Latrobe School District.

Latrobe School District is a small, rural, K-8 district covering 35 square miles located in the southwest corner of El Dorado County. Miller's Hill serves approximately 100 students in grades 4-8. Miller's Hill has been recognized seven times as a California Distinguished School, most recently in 2021. Miller's Hill was also a 2015 Gold Ribbon School, and a 2015 California Association of School Boards Golden Bell Award winner. Dedicated staff and students have made this school a model of success, both academically and socially.

The Latrobe School District's educational mission is to provide a place to learn, a place to grow, a place to be safe, a place to be proud, and a place to work together. Our small class size (ideally 20 students or less) enables us to know and appreciate each individual student's abilities and needs. Students are encouraged to become the best that they can be, meet or exceed state standards, and help each other achieve individual and group goals. In 2016 an Elective Wheel was added to the curriculum for sixth through eighth graders. Instrumental music for all students was a new addition in 2018. Students in grades 6-8 rotate through eight week enrichment classes including Character Drawing, Culinary Arts, Instrumental Music, Spanish, and Video Production. We also employ a PE teacher so that every child receives 80 minutes of Physical Education from a credentialed specialist each week. Sports is a big part of our culture at Miller's Hill, and students participate in the county sports league in the following sports: Cross Country, Boys and Girls Basketball, Boys and Girls Volleyball, and Track.

Parents are encouraged to become actively involved in the educational process. Parents readily volunteer in the classrooms, help with special events, serve on the Parent Advisory Committee/School Site Council, Parent Teacher Club, and perform other countless acts of service making the schools the center of the community. The Parent Teacher Club brings the community together through well-planned regular events that involve both parents and students.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

2021-22 data was not included as part of the initial release of data on 1/13/23. The CDE has indicated that the data will be available after the 2/1/23 SARC deadline. The data will be populated when it is published by the CDE.

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

2022-23 Quality, Currency, Availability of Textbooks and Other Instructional Materials

Latrobe School District held a public hearing on September 20, 2022, and determined that each school within the district had sufficient and good quality textbooks, instructional materials, or science lab equipment pursuant to the settlement of Williams vs. the State of California. All students, including English learners, are given their own individual standards-aligned textbooks or instructional materials, or both, in core subjects for use in the classroom and to take home. Materials approved for use by the State are reviewed by all teachers and a recommendation is made to the School Board by a selection committee composed of teachers and administrators. All recommended materials are available for parent examination at the district office prior to adoption. The table displays information about the quality, currency, and availability of the standards-aligned textbooks and other instructional materials used at the school.

School Facility Conditions and Planned Improvements

Miller's Hill was originally constructed in 1983. In 2002 a major addition of a new library and 3 classrooms was built. Today there are 9 classrooms, 1 multipurpose room/cafeteria, 1 library, 1 staff room, 1 playground and 1 field. The district has developed policies regarding campus safety, fire drills, and playground supervision. Buildings are kept clean and well maintained. The Superintendent/Principal works daily with the custodial staff of one full-time employee to ensure that the cleaning of the school is maintained to provide for a clean and safe school. A school building maintenance plan is followed ensuring that the schools are upgraded and maintained properly. Our facilities are more than adequate to serve our current student population.

Miller's Hill School is wired and Internet access is provided in every classroom. Thanks to a committed community and parents who volunteer support, the school continues to be a place of pride for our community. In 2015 School's Insurance Authority conducted a campus inspection. The report was positive in all regards. In 2016, an energy efficiency project was undertaken. All the lights on campus were replaced with more energy efficient lights and bulbs. All efforts to ensure building safety, cleanliness, and adequacy have been successful. During 2020 a generator was added to the campus. The generator ensures that the water treatment plant will remain functional in case of a power outage.

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22
English Language Arts/Literacy (grades 3-8 and 11)	N/A	71	N/A	73	N/A	47
Mathematics (grades 3-8 and 11)	N/A	56	N/A	63	N/A	33

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

Latrobe School District greatly benefits from its supportive parents. The school has a strong base of parent volunteers. Parents are encouraged to join the Latrobe Parent Teacher Club and serve on the Parent Advisory Committee/School Site Council. These two groups serve both schools in the district. The Parent Teacher Club meets monthly and plans and hosts numerous events for our students and families. The Parent Advisory Committee/School Site Council meets approximately three times per year. They provide oversight of our LCAP and School Plan for Student Achievement and monitor progress on goals in each plan. Through the LCAP process parents are also invited to give us feedback through our annual Parent Survey.

2021-22 Chronic Absenteeism by Student Group

C. Engagement

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

Subject	School 2019-20	District 2019-20	State 2019-20
Suspensions	4.44	2.52	2.45
Expulsions	0.00	0.00	0.05

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

2022-23 School Safety Plan

Safety of students and staff is a primary concern of Miller's Hill. The school strives to be in compliance with all laws, rules, and regulations pertaining to hazardous materials and state earthquake standards. The School Site Safety plan is reviewed at the first staff meeting of the year (8/8/22). Additional reviews of the plan are held following drills and/or other events as necessary (11/15/22). The plan is updated as needed by the School Safety Committee and the staff members. All revisions are communicated to the both the classified and certificated staff. The school's disaster preparedness plan includes steps for ensuring student and staff safety during a disaster. Fire, evacuation, lockdown and earthquake drills are conducted throughout the school year. Students are supervised before and after school by certificated staff and by classified staff during lunch. There is a designated area for student drop off and pick up. Visitors must check in at the office.

Additional security cameras and alarms have been added to the Miller's Hill campus. Two are directly connected to our new water treatment plant.

The staff is trained in CPR/First Aid and AED procedures every other year. An AED was installed at Miller's Hill in 2019 and an additional unit was installed at Latrobe Elementary in 2022. In 2016 all staff members participated in Active Shooter Training, and as result of this training our procedures and protocols were updated across the district.

Currently all staff members are actively implementing Positive Behavior Interventions and Supports (PBIS). PBIS focuses on school climate and the social emotional well-being of our students which a component of our Safety Plan as well as our Local Control Accountability Plan.

Professional Development

Using data from LCAP and the CA Dashboard, district staff members identified School Climate and attendance as areas of focus. The district was awarded MTSS grant funds and a team of staff members worked throughout the 2018-2019 school year reviewing data, procedures, programs and policies that related to school climate and environment. In the second year grant funds were used for staff members to attend the Positive Behavior Interventions and Strategies (PBIS) conference in Sacramento and participate in PBIS on site trainings. This year, staff members will continue to make adjustments and improvement in our procedures relating to school climate and student success. This is an ongoing process and will continue to be a focus of our Professional Development for the foreseeable future. Also, as the district has adopted a new NGSS Science curriculum, StudySync, teachers will participate in local training at the county office and on site training offered by vendors.
