

## School District Integrated Pest Management Plan

When completed, this template meets the Healthy Schools Act requirement for an integrated pest management (IPM) plan. An IPM plan is required if a school district uses pesticides<sup>1</sup>.

### Contacts

<u>Latrobe School District</u>	<u>7900 S Shingle Rd, Shingle Springs, CA 95682</u>	
School District Name	Address	
<u>Aaron Bryant</u>	<u>530-677-0260</u>	<u>abryant@latrobeschool.com</u>
District IPM Coordinator	IPM Coordinator's Phone Number	Email Address

### IPM statement

It is the goal of Latrobe School District to implement IPM by focusing on long-term prevention or suppression of pests through accurate pest identification, by frequent monitoring for pest presence, by applying appropriate action levels, and by making the habitat less conducive to pests using sanitation and mechanical and physical controls. Pesticides that are effective will be used in a manner that minimizes risks to people, property, and the environment, and only after other options have been shown ineffective.

Our pest management objectives are to: *(Example: Focus on long-term pest prevention)*

Prevent, monitor and take a least toxic approach to pest management, using pesticides as a last resort. It is our goal to maintain school grounds as pest free as reasonably possible while ensuring the health and safety of our students, staff and community, with the least impact on our environment.

### IPM team

In addition to the IPM Coordinator, other individuals who are involved in purchasing, making IPM decisions, applying pesticides, and complying with the Healthy Schools Act requirements, include:

Name and/or Title	Role in IPM program
Dave Scroggins	Superintendent
Tracy Pearson	District Secretary
Joy Worth	School Secretary
Phillip Lambson	Custodian

### Pest management contracting

- Pest management services are contracted to a licensed pest control business.  
Pest Control Business name(s): None at this time
- Prior to entering into a contract, the school district has confirmed that the pest control business understands the training requirement and other requirements of the Healthy Schools Act.

**Pest identification, monitoring and inspection**

Pest Identification is done by: Maintenance Staff  
*(Example: College/University staff, Pest Control Business, etc.)*

Monitoring and inspecting for pests and conditions that lead to pest problems are done regularly by Maintenance Staff and results are communicated to the IPM Coordinator.  
*(Example: District staff title, e.g. Maintenance staff)*

Specific information about monitoring and inspecting for pests, such as locations, times, or techniques include:  
*(Example: Sticky monitoring boards are placed in the kitchen and are checked weekly by custodial staff.)*

Grounds are walked daily and given a visual inspection for any problem or pest activity. A more detailed inspection is performed monthly. Sticky boards are continually placed throughout campus and monitored at least weekly for activity. More attention is given to areas that have historically or currently been areas of concern. We have a work order system in place if any staff member has any concern or need regarding the school sites. There is communication between School Maintenance Staff and Pest Control Contractor for any areas of concern.

**Pests and non-chemical management practices**

This school district has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level:

Pest	Remove food	Fix Leaks	Seal Cracks	Install barriers	Physcial removal	Traps	Manage irrigation	Other
Rodents	x	x	x	x	x	x	x	Maintain clean landscaped areas
Varmints	x	x	x	x	x	x	x	Maintain clean landscaped areas
Snakes	x	x	x	x	x	x	x	Maintain clean landscaped areas
Insects	x	x	x	x	x	x	x	Maintain clean landscaped areas
Spiders	x	x	x	x	x	x	x	Maintain clean landscaped areas
Weeds		x	x	x	x		x	Apply mulch

**Chemical pest management practices**

If non-chemical methods are ineffective, the school district will consider pesticides only after careful monitoring indicates that they are needed according to pre-established action levels and will use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property and the environment.

This school district expects the following pesticides (pesticide products and active ingredients) to be applied during the year. (This list includes pesticides that will be applied by school district staff or licensed pest control businesses.):

Name of Pesticide	Active Ingredient(s)
Round-Up Pro Max	Glyphosate
Spectracide Wasp & Hornet Killer	Prallthrin, Lamba-Cyhalothrin

**Healthy Schools Act**

This school district complies with the notification, posting, recordkeeping, and all other requirements of the Healthy Schools Act. (Education Code Sections 17608 - 17613, 48980.3; Food & Agricultural Code Sections 13180 - 13188)

## Training

Every year school district employees who make pesticide applications receive the following training prior to pesticide use:

- Pesticide specific safety training (Title 3 California Code of Regulations 6724)
- School IPM training course approved by the Department of Pesticide Regulation (Education Code Section 16714; Food & Agricultural Code Section 13186.5).

## Submittal of pesticide use reports

- Reports of all pesticides applied by school district staff during the calendar year, except pesticides exempt<sup>1</sup> from HSA recordkeeping, are submitted to the Department of Pesticide Regulation at least annually, by January 30 of the following year, using the form provided at [www.cdpr.ca.gov/schoolipm](http://www.cdpr.ca.gov/schoolipm). (Education Code Section 16711)

## Notification

This school district has made this IPM plan publicly available by the following methods (check at least one):

- This IPM plan can be found online at the following web address: www.latrobeschool.com
- This IPM plan is sent out to all parents, guardians and staff annually.

## Review

- This IPM plan will be reviewed (and revised, if needed) at least annually to ensure that the information provided is still true and correct. Date of next review: 1/1/2023

*I acknowledge that I have reviewed this school district's IPM Plan and it is true and correct.*
